Este manual, complementar à AIP-BRASIL, tem por objetivo divulgar as cartas previstas em AD 2.24, ressalvadas as AOC ICAO TIPO A e as PATC.

As alterações que porventura afetarem estas Cartas, serão imediatamente divulgadas através de Avisos aos Aeronavegantes (NOTAM). As Cartas alteradas serão posteriormente substituídas por novas emendas.

As publicações de informações aeronáuticas são produzidas pelo DECEA, seguindo normas, métodos e técnicas voltadas para oferecer aos usuários um maior nível de confiança nos dados apresentados, fator imprescindível para a segurança de voo.

Considerando que a precisão, a qualidade e a eficiência das informações aeronáuticas são indispensáveis à navegação aérea, com reflexos diretos na segurança de voo, o Comando da Aeronáutica não se responsabiliza pela utilização de cópias ou reproduções, de qualquer natureza, das publicações de informações aeronáuticas editadas pelo DECEA, principalmente as Cartas de Aeródromos, Cartas de Aproximação e Cartas de Saída constantes do Manual AIP-MAP.

Os erros, omissões ou divergências verificadas neste manual bem como qualquer sugestão ou observação tendente a aprimorá-lo, deverão ser endereçados à:

The Aeronautical information publications are produced by DECEA, according to standards, recommended practices and techniques designed to provide the users with data of a high level of reliability, which constitutes an indispensable factor for flight safety.

Considering that the accuracy, quality and efficiency of the aeronautical information are essential to air navigation and reflect directly on flight safety, the Air Ministry is not responsible for the use of copies or reproductions, of any kind, of the aeronautical information publications issued by DECEA, especially the Airdromes Charts, Instrument Approach Charts and Instrument Departure Charts contained in the AIPMAP Manual.

All mistakes, omissions or misunderstandings occurring in this Manual as well as any suggestions or remarks intended to improve it, shall be directed to:
